***Dams of Distinction  
Bull & Female Sale***

*46th Annual Sale*  
**Monday**  
**February 16, 2004**

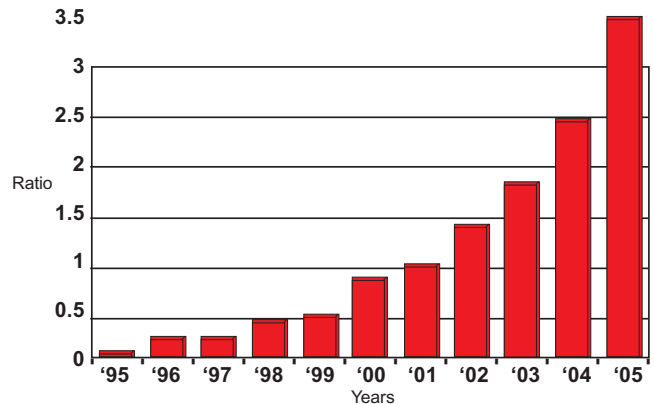

# Certified Hereford Beef Update

CHB carcasses are broken down muscle by muscle at the packing plant. They are then boxed, weighed, barcoded and marketed separately. This allows meat department managers to provide the right cut to the right customer at the right time, thus increasing market share for Hereford Beef. Our hats are off to the retail meat department managers, wholesalers and packer meat salesmen. You are doing your job well. Three grocery retail chains have now surpassed 10 Million pounds of CHB sold.

## CHB is Closing in on a Short Term Goal of a **3 to 1 Ratio**

(3 CHB Harvested animals / purebred Hereford animal registered per year)

**The 3 to 1 ratio is what stimulated the rapid growth in the Angus breed.**  
Several more Hereford sired calves are needed to maintain the rapid growth of the CHB program.

## It is the veteran

**It is the VETERAN, not the preacher, who has given us freedom of religion.**

**It is the VETERAN, not the reporter, who has given us freedom of the press.**

**It is the VETERAN, not the poet, who has given us freedom of speech.**

**It is the VETERAN, not the campus organizer, who has given us freedom to assemble.**

**It is the VETERAN, not the lawyer, who has given us the right to a fair trial.**

**It is the VETERAN, not the politician, who has given us the right to vote.**

**It is the VETERAN, who gave us the freedom to raise quality beef.**

# Announcements

## Lunch

Free lunch starts at 11 a.m.

## 3 Delivery Options

- Free delivery in the Dakotas, Cooperate on farther hauls.
- Haul your own discounts: \$20 Bulls, \$6 Heifers.
- Leave here on feed at \$1/day, then haul your own when you want them.

## Buyer's Insurance Options

At the buyer's option, Rausch Herefords will pay 1/2 of the premium for up to one year on insurance purchased at the time of settlement on sale day. This option applies to the buyer of any lot in the sale.

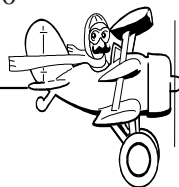

## Guarantee

All animals of breeding age are guaranteed breeders. Animals failing to breed in a reasonable period may be returned, if in as good condition as when sold. The seller reserves the right to try said animals for five months, and if it proves to be a breeder, to return same animal to station of buyer at the buyer's expense.

**Performance accuracy  
is enhanced in large groups.**

Performance data is based on averages.

The larger the group measured  
the more significant the average.

( Example, if you average 4 head and  
add one more the average can  
change more than if  
you average 40 head and add one more.)

## ***Welcome to the 46<sup>th</sup> Annual Rausch Herefords Bull & Female Sale***

*What a resilient beef industry we have when everyone works together. Its focus on producing a safe and wholesome beef product for the consumer is commendable. Science based facts and hard work will continue to generate consumer confidence in our industry.*

*This has been a good year for improving our breeding program. The drought has helped to identify the animals that have what it takes to perform under stress conditions. We are proud of the animals in the offering this year and think they are the best we have ever offered. The new genetics that we have brought into the herd the past couple of years have surpassed our expectations. We hope they will meet your approval as well.*

*Technology allows us to track and evaluate several traits at the same time and has sped up our progress in herd improvement. It is our year long goal to select the very top progeny from our large cow herd and present them to you in our annual sale. The crew scrutinizes the herd daily to bring the very best to you by using every means we have available to us. Birth weights, weaning weights, yearling weights, carcass ultrasound and continuous eyeballing is used and recorded in our computer. The data is analyzed every way possible and then rechecked against the crew's appraisals. We have done the best job we know how to do in bringing the cream of the herd to you.*

*We are willing to assist you in any way we can to help you learn about the cattle in our offering. We enjoy the communication we have with you and always look forward to meeting new friends. We hope your cattle purchases treat you as well as they have treated us.*

*The Rausches*

152 is a real smooth made, thick Commander bull with eye pigment and a big hind quarter. This heavy boned, meaty bull has a lot of potential. Dam is another feminine Mark cow that brings home a good calf every year.

## Rausch Hereford Bulls are efficiency experts.

They bring more genetic power to the F1 cowherd in the United States. Generations of cattlemen have depended upon Rausch Hereford Bulls for exceptional cowherd fertility and longevity as well as superior feed conversion in the feedyard.

# Dams of Distinction

South Dakota's & America's #1  
Dams of Distinction Cow Herd

# Dams

OF DISTINCTION

The Rausch cows did it again! For the past 23 years, Rausch Herefords has had the highest number of cows on the Hereford breed's TPR Most Efficient Cow List and Dams of Distinction List.

*"These are the most efficient cows  
in the Hereford breed,"*

said Dr. John Hough, past American Hereford Association Director of Research and Performance.

They've met the strictest requirements for:

-  Early calving,
-  Reproductive efficiency,
-  Calving intervals of no greater than one year, and
-  Weight ratios in the top end of the breeder's herd.

## NOTES

# Cathedral of the Prairie

While in Hoven, stop in and see the Cathedral of the Prairie. It is listed on the National Register of Historic Places. It seats over 850 people in a town of 500. It has been under continual renovation and repair since the early 1980's. Volunteers contribute their time, talent and resources. Over 1,000 sign the register annually. Recently the SD Symphony Orchestra performed a Christmas concert to a sell out crowd.

Church workers twice did head stands on top of a 130 foot steeple... once when the church was built and recently when it was re-shingled.

## Hoven is also the home of South Dakota's & America's #1 Dams of Distinction Cow Herd — Rausch Herefords

The Rausch cows did it again! For the past 23 years, Rausch Herefords has had the highest number of cows on the Hereford breed's TPR Most Efficient Cow List and Dams of Distinction List — 359 Rausch cows qualified.
