Bid online at...
DVAuction Broadcasting
Real-time Auctions

Steer mates to the 2-year-old bulls in the offering on feed in Nebraska feedlot graded 87% Certified in the Certified Hereford Beef program and topped the market.

180 Open Heifers Sell

*20 head from the registered replacement pen and
160 head from the top end of the commercial pen
(most can be registered)*

Announcements

Lunch

Free lunch starts at 11 a.m.

3 Delivery Options

- Free delivery in the Dakotas, Cooperate on farther hauls.
- Haul your own discounts: \$20 Bulls, \$6 Heifers.
- Leave here on feed at \$1/day, then haul your own when you want them.

Buyer's Insurance Options

At the buyer's option, Rausch Herefords will pay 1/2 of the premium for up to one year on insurance purchased at the time of settlement on sale day. This option applies to the buyer of any lot in the sale.

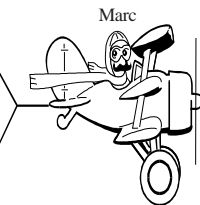

Guarantee

All animals of breeding age are guaranteed breeders. Animals failing to breed in a reasonable period may be returned, if in as good of condition as when sold. The seller reserves the right to try said animals for five months, and if it proves to be a breeder, to return same animal to station of buyer at the buyer's expense.

Rausch Herefords since 1946

Welcome to the 47th Annual Rausch Herefords Bull & Female Sale

It is really great to have the cattle market on a higher plateau for the past year and to have predictions for more of the same in the future. Mild weather conditions and timely moisture this past year have been ideal for the cattle. They have responded by performing to their best ability, and comparisons among them can be made with accuracy. We are pleased to say that this is the most uniform set of cattle we have ever offered. The genetics we have selected the last couple of years are performing beyond our expectations.

Our breeding program is all natural. We purchase possession interests in AI sires and prove them out physically. This is helpful in providing us with several cows that qualify for the Hereford Breeds' Dams of Distinction List.

We are also pleased about the way our cattle perform in the feedlot and qualify for the Certified Hereford Beef program. Eighty seven percent of the steer end of this year's 2 year old bull offering certified in July and topped the market. The new packing plant under construction in Huron, SD will be a big boost in demand for Hereford influenced cattle. Ridgefield Farms will market beef that relies on the merits of Hereford, Hereford influenced and British Cross Baldy cattle.

This is our first offering of polled bulls at auction. In the past we have sold them private treaty and they have earned us some very satisfied customers. If you need any assistance in sorting through the sale offering, please feel free to talk to any one of us. We are a family operation and enjoy meeting and visiting with you.

Performance accuracy is enhanced in large groups.

Performance data is based on averages.

The larger the group measured the more significant the average.

(Example, if you average 4 head and add one more the average can change more than if you average 40 head and add one more.)

Dams of Distinction

South Dakota's & America's #1
Dams of Distinction Cow Herd

Dams

OF DISTINCTION

The Rausch cows did it again! For the past 24 years, Rausch Herefords has had the highest number of cows on the Hereford breed's TPR Most Efficient Cow List and Dams of Distinction List.

"These are the most efficient cows
in the Hereford breed,"

said Dr. John Hough, past American Hereford
Association Director of Research and Performance.

They've met the strictest requirements for:

-  Early calving,
-  Reproductive efficiency,
-  Calving intervals of no greater than one year, and
-  Weight ratios in the top end of the breeder's herd.
